

Campbell County Schools
4th Nine Weeks at-a-Glance
3rd Grade Math

Mathematical Practices:

1. Make sense of problems and persevere in solving them.
2. Reason abstractly and quantitatively.
3. Construct viable arguments and critique the reasoning of others.
4. Model with mathematics.
5. Use appropriate tools strategically.
6. Attend to precision.
7. Look for and make use of structure.
8. Look for and express regularity in repeated reasoning.

Common Core Coding Explanation

Domain:

- OA: Operations and Algebraic Thinking
- NBT: Number and Operations in Base Ten
- NF: Numbers and Operations in Fractions
- MD: Measurement and Data
- G: Geometry

Common Core State Standard	Aligned Textbook Lessons/Activities
Graphing and Measurement – Suggested _____ Days	
<p>3.MD.A.2. Measure and estimate liquid volumes and masses of objects using standard units of grams (g), kilograms (kg), and liters (l).¹ Add, subtract, multiply, or divide to solve one-step word problems involving masses or volumes that are given in the same units, e.g., by using drawings (such as a beaker with a measurement scale) to represent the problem.² ¹ Excludes compound units such as cm³ and finding the geometric volume of a container. ² Excludes multiplicative comparison problems</p>	
<p>3.MD.B.3. Draw a scaled picture graph and a scaled bar graph to represent a data set with several categories. Solve one- and two-step “how many more” and “how many less” problems using information presented in scaled bar graphs. <i>For example, draw a bar graph in which each square in the bar graph might represent 5 pets.</i></p>	
<p>3.MD.A.1. Tell and write time to the nearest minute and measure time intervals in minutes. Solve word problems involving addition and subtraction of time intervals in minutes, e.g., by</p>	

representing the problem on a number line diagram.

Elapsed Time – Suggested 6 Days

3.MD.A.1. Tell and write time to the nearest minute and measure time intervals in minutes. Solve word problems involving addition and subtraction of time intervals in minutes, e.g., by representing the problem on a number line diagram.
